

## INSCOM CIO/G6 Enterprise Acquisition Industry Day Conference

- 
- ### Agenda
- 1030            Opening Remarks
  - 1100            Program Requirement Briefs
  - 1200            Closing Remarks
- Theater will remain open for 30 minutes for industry teaming/partnering discussions

- 
- ### The Future
- Potential Technical Initiatives
    - Universal Thin Client
    - "Follow the Sun" Trojan Network Operations
    - Datacenter Consolidations

- 
- ### Purpose
- Inform industry about the upcoming G6 Enterprise acquisition
    - Provide greater industry understanding of requirements
    - Allow time for companies to form strategic partnerships
  - Solicit industry input
    - Recommendations for best structuring of the contract vehicle
    - Recommendations to reduce support costs and gain fiscal efficiency
    - Recommendations for incentive contract structure
    - Identify industry best practices given current infrastructure and planned infrastructure upgrades
    - Identify industry capabilities and interest in supporting horizontal integrated site solutions

### G6 Enterprise Acquisition Goal

*Gain efficiencies and improve responsiveness, quality and consistency of Command, Control, Communications, Computers, and Information Management (C4IM) services supporting INSCOM's intelligence mission.*

### G6 Enterprise Success Factors

- Advance customer support by improving the consistency and quality of classified and unclassified C4IM services.
- Compete G6 Enterprise Acquisition contract for maximum efficiency
  - 5 year requirement with expected value in excess of \$500 million
  - Reduce redundancies and add scope in current contract vehicles
- Maximize the competitive structure to obtain “Best Value” for every dollar spent
- Provide efficient and effective on-site support
  - Horizontal integration of support at sites (excluding IA, Visual Information & Multimedia, and Systems Engineering and Technical Assistance support)

7

### Functional Area Overview

- Network Operations
- Operational Maintenance
- Storage Management
- Service Desk
- Information Assurance
- Engineering & Installation
- Workflow, Web and Database Services
- Communications
- System Engineering & Technical Assistance (SETA) Support
- Visual Information & Multimedia Engineering Support

8

10

### Closing Remarks

11

### Backup Slides

12

## Functional Areas

### Network Operations

- System, Network, Web and Database Administration
- System Backup
- Network Monitoring
- Record Messaging
- Account Management
- Server/System Administration
- LAN Administration
- Enterprise AD Management

### Operational Maintenance

- Change Management
- Hardware Management
- Software Management
- On-Call Support
- Business Processes

13

## Functional Areas

### Storage Management

- Manage/Administer Enterprise Storage Systems
- Emergency Data/Disaster Recovery

### Service Desk

- Service Desk and Technical Support
- Contingency Support
- CAC Reset
- Trouble Ticket Processing

### Information Assurance

- Accreditations
- Compliance Management
- Firewalls
- Security Operations
- IA Security Officer

14

## Functional Areas

### Engineering & Installation

- Site Surveys
- Engineering Implementation Plan
- Installation and Testing

### Workflow, Web and Database Services

- Design, Develop, Test, Operate, Enhance and Maintain Applications and the Database Management Systems (DBMS)
- Training
- User Manual Updates, Guides, On-Line Help, and Multimedia Tutorials

### Communications

- Tech Control
- COMSEC Support

15

## Functional Areas

### SETA Support

- Army Records Information Management System (ARIMS)
- Enterprise Solutions Development
- Business Case Development
- Project/Initiative Support
- ITIL ITSM Support
- IT Capital Planning and Investment
- Business Process Reengineering/Lean Six Sigma

### Visual Information and Multimedia

- VTC Operational and Technical Support
- Multimedia Production, Presentation and VTC Support
- Multimedia Production Support
- Engineering & Design of VTC and Multimedia Systems Support
- Closed Circuit and Commercial Media Services
- VI/Multimedia Resource Planning Support
